CONVENIENT EXTENSION TEST LEAD

SKU: TR25-G

The New TR25-G Convenient Extension Test Lead can be used as a trailing lead or in situations where longer test leads are required to connect to test instruments. They can also be connected together for a longer run. Supplied with 25m of flexible cable. The 130mm diameter compact design allows the TR25 Extension Test Lead to fit into tool bags or back packs. Test Cable is easily wound back onto the reel for fast retrieval. A selector switch enables the reel to run free, under tension or stop. This product is also available in CATIV600V Red and Black test lead configurations.
