ELECTRICAL MAT

In Brief Insulated Switchboard Matting is generally placed in front of electrical panels, switch gears & High Voltage equipment's in order to create a safe working environment for the operators/users. Where there is a possibility of contact with electrical equipment or conductors. Insulated Mats coupled with personal PPE provide addition protection.

Our Electrical Insulated Mats are manufactured of High quality dielectric elastomer rubber with x-cross technology non-slip surface. EFO Insulating Matting is Manufactured to comply with the Australian and New Zealand standard AS/NZS 61111:2020. Furthermore we can supply HV Insulated switchboard matting and 10M rolls manufactured IEC 61111:2009. Class 0 1000V, Class 1 7.5KV, Class 2 17KV, Class 3 26.5KV and Class 4 36KV. All our Electrical Insulated Mats also come marked with the compliance, voltage and class.

1000V ELECTRICAL INSULATED MAT AS/NZS 61111:2020

SKU: MATLV

Recommended for protection of personnel where there is a possibility of contact with electrical equipment or conductors in domestic, commercial and industrial work areas. Our 1000V electrical insulated mat is manufactured of high quality dielectric elastomer rubber to provide complete protection against electrical shock due to earth faults. EFO switchboard matting complies with the Australian and New Zealand standard AS/NZS 61111:2020.

[Read More](#)

HV ELECTRICAL INSULATING MAT AS/NSZ IEC61111:2020 CLASS 0-4

SKU: MATHV

Recommended for protection of personnel where there is a possibility of contact with electrical equipment or conductors in domestic, commercial and industrial work areas. Our HV electrical insulating mat is manufactured of high quality dielectric elastomer rubber to provide complete protection against electrical shock due to earth faults. EFO insulated matting is manufactured to AS/NSZ IEC61111:2020 and IEC61111:2009. We Can supply Electrical Insulated Mats from Class 0: 1000V Class 1: 7.5KV, Class 2: 17KV, Class 3: 26.5KV and Class 4: 36KV. All our HV Insulated Mats come marked with the compliance, voltage and also class. 10M Rolls of insulated matting are also available upon enquiry.

ARC FLASH FACE SHIELDS

Arc flash face shields provide protection that is critically important in keeping workers safe. There are many methods of protecting personnel from arc flash hazards. This can include personnel wearing arc flash personal protective equipment (PPE) such as arc flash face shields. The best way to remove the hazards of an arc flash is to de-energize electrical equipment when interacting with it, however de-energizing electrical equipment is in and of itself an arc flash hazard. EFO Also supplies a full range of Arc Flash Clothing. Please contact the expert team at EFO for any assistance in selection of Arc Flash protective clothing and Electrical PPE.

SUPERA ARC FLASH BALACLAVA 16 CAL/CM2

SKU: BAKVFR

The Supera Arc Flash Balaclava provides a 360 degree head and neck protection from Arc Flash dangers when used with the Cat 2 Arc Flash Face shields. Made from two layers of Kermel-viscose blend material. This hood is a NFPA 70E compliant to 16 Cal/cm2 and its inherent FR properties will not wash out. Kermel® is a very soft fiber that feels great next to the skin.
