

# ARC FLASH FACE SHIELDS

Arc flash face shields provide protection that is critically important in keeping workers safe. There are many methods of protecting personnel from arc flash hazards. This can include personnel wearing arc flash personal protective equipment (PPE) such as arc flash face shields. The best way to remove the hazards of an arc flash is to de-energize electrical equipment when interacting with it, however de-energizing electrical equipment is in and of itself an arc flash hazard. EFO Also supplies a full range of Arc Flash Clothing. Please contact the expert team at EFO for any assistance in selection of Arc Flash protective clothing and Electrical PPE.

## SUPERA ARC FLASH BALACLAVA 16 CAL/CM2

**SKU:** BAKVFR

The Supera Arc Flash Balaclava provides a 360 degree head and neck protection from Arc Flash dangers when used with the Cat 2 Arc Flash Face shields. Made from two layers of Kermel-viscose blend material. This hood is a NFPA 70E compliant to 16 Cal/cm2 and its inherent FR properties will not wash out. Kermel® is a very soft fiber that feels great next to the skin.

## SALISBURY ARC FLASH FACE SHIELD 12 CAL/CM2

**SKU:** AS1200HAT-PP

The new Premium Salisbury Arc Flash Face shield is a Weight Balancing Arc Flash Face Shield and Helmet. It stows in a balanced compact position, centred over the top of the hard hat when not required. The Face shield has an ATPV rating of 12 cal/cm<sup>2</sup>. Nanotechnology provides a more transparent window for improved visibility. The Salisbury Arc Flash Face Shield unit includes air vents below the chin that allow a natural convection air flow through the face shield. As a result this reduces fogging of the visor, lowers CO<sub>2</sub> levels and improves comfort for the user.
