

FIRST AID EQUIPMENT

EFO Supplies First Aid Equipment for Electrical and Mining industries based in Australia and also the Asia Pacific.

Organisations should adopt a risk management assessment to determine, select and supply appropriate equipment which will provide basic items for first aid should an incident occur. This risk management process must take into account the additional and special hazards encountered in the Electricity Supply Industry. Examples include electric shock, flash burns, snake bites and insect attacks. In Addition please contact Electrical Factory Outlet for any special requests not displayed on the web site.
